

I think your poor taste in radio disc jockeys is appalling. For years we have heard nothing but sex, homosexuals and promiscuity on the airwaves as an everyday way to deal with life issues. You should not allow such low examples of life to fill the airwaves each morning just because we want to listen to some music on our alarm clocks. The formats allowed are Hollywood oriented trash that I am just sick of hearing. Is life just one big Soap Opera? I don't think so. We just want some decent DJ and Programming not SENSATIONALISM for your rating. Quit making us so DUMB!!!!!!!!!!
